

Market & FABLAB

Remake it again and again

Site

There are not many attractive Spanish plaza in this area.

Existing structure

The red building frame serves as a memory of the existing structural frame.

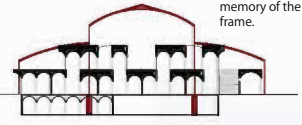

Diagram of the plan

A new ground is created above the market and activities can be seen through the void.

Growing process

Cross sectional pattern

Market scenery
The boundaries between each layer are not strong. So people can see each other through this void.

West side facade

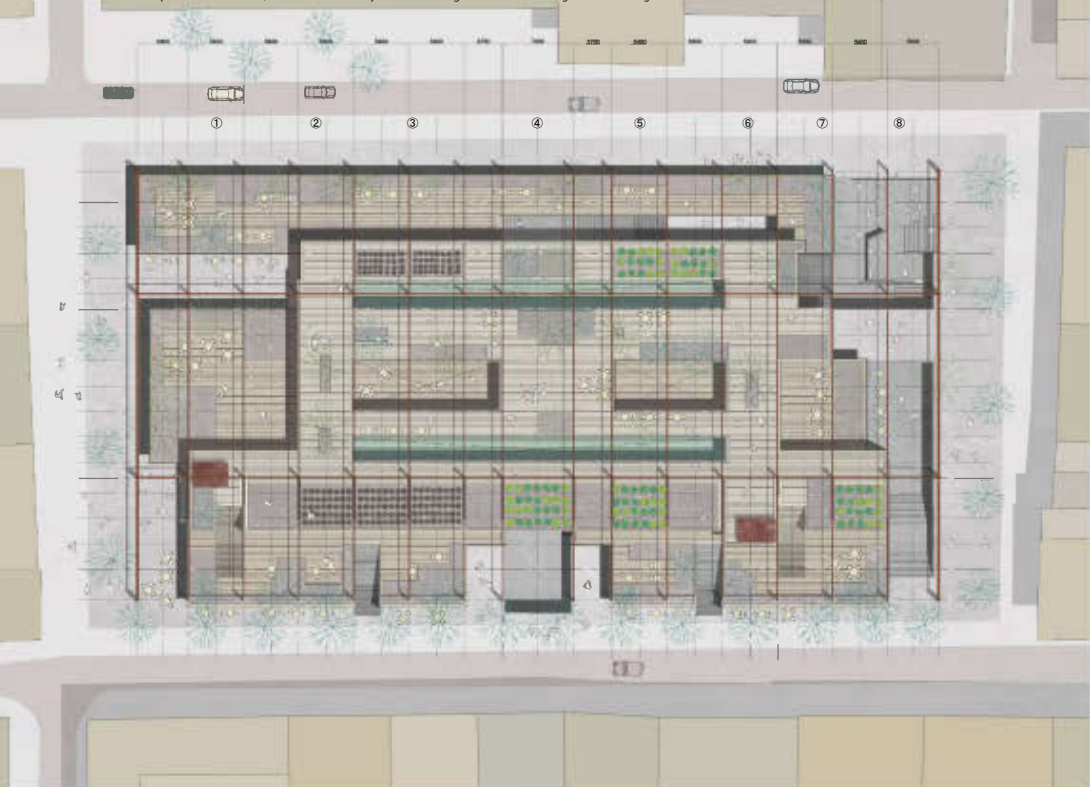

east side facade

Layout drawing

Entrances to the market will be provided on all sides, and voids will allow you to see through the Fab Lab underground and the garden on the roof.

Detailed cross sectional
